

# PROJECT PROFILE

## WESTGATE BANK, LINCOLN, NEBRASKA

### Project Details

This project was completed in 2004 using all high end architectural finishes including the stair and rail system. The stairs stingers had brass medallions applied along with rail system using a combination of painted steel post and rails with polished brass incorporated into the pickets and rail systems. The stairs treads and landings are marble tile. The stair tower shown is located at the entrance atrium of the bank facility. Ramark was teamed up with Drake Williams Steel on this project. Ramark's value was \$122,615.00 for the stair and rail systems.
